To be approved, this Education and Training Program must relate to the duties, responsibility, operation, maintenance or supervision of a drinking water system, a sewerage system or both.

What type(s) of credit approval are you applying for? Check only one of the following:

- ☐ Drinking Water (include **12 copies** of the **application and outline/agenda**)
☐ Sewerage (include **1 copy** of the **application and outline/agenda**)
☐ Both Drinking Water & Sewerage (include **13 copies** of the **application and outline/agenda**)

A **teaching outline or agenda** showing the duration of each program segment **must** be submitted with this application. Training considered "on-the-job training" or "product specific training" is not eligible for credit and will not be approved by the Board for CECs. (Refer to Section IV below for additional information in this regard.) If this training has been approved for CEUs by either IACET or ACCET, this application may not be required. (Refer to Section V below for further information on IACET or ACCET programs.)

Applicants will be notified of the status of their application within 90 days. Incomplete applications will not be accepted. If approved, a record of training activity **MUST** be provided, as identified in the CEC approval letter.

Many training programs are specific to certain brands of products or equipment and are important only to individuals that own or use such products or equipment. How is this training program broadly applicable in nature, and not specific to a particular brand of product/equipment? _____

V. INFORMATION FOR IACET OR ACCET APPROVED COURSES

If this training program has been accredited by either the International Association for Continuing Education and Training (IACET) or the Accrediting Council for Continuing Education & Training (ACCET), it may not be necessary for the program sponsor to apply for CECs from DEQ. Under a "blanket approval" provision, courses may be accepted for certificate renewal if they are IACET or ACCET approved AND if the training relates to the duties, responsibility, operation, maintenance or supervision of a drinking water system or a sewerage system, as appropriate. Training providers offering IACET or ACCET approved programs may apply for CECs from DEQ, but it may not be necessary provided the training program meets the conditions described above.
